PROFILE

Dynamic Informatics Engineer and Product Manager with 7+ years of experience leading government digital transformation initiatives, electronic service portals, and high-volume citizen transaction platforms. Proven track record in orchestrating multi-governorate software products, streamlining E-visa and ticketing workflows, and managing electronic payment integrations. Strong expertise in enterprise Oracle database tuning, security compliance (ISO 27001), and high-availability operations, driving operational efficiency and exceptional user adoption.

LANGUAGES

- Arabic — NATIVE
- English — GOOD

PROFESSIONAL EXPERIENCE

Product Manager
Syrian Ministry of Interior — Mar 2020 – Present

- **E-Service Portal Management:** Directed the complete product lifecycle of the Ministry's E-Services Portal—scaling digital solutions for passport bookings, fee collections, and E-visas serving hundreds of thousands of citizens.
- **Digital Payment Integration:** Spearheaded the electronic payment product for traffic violations, overseeing secure transaction gateways, financial verification pipelines, and cross-departmental stakeholder alignment.
- **Licensing & Permitting Products:** Managed core multi-governorate software products for traffic license and weapon permit issuances, minimizing system error rates and accelerating service delivery speed.

Systems Administrator
Syrian Ministry of Interior — Sep 2018 – Mar 2020

- **Database Architecture & Tuning:** Architected, deployed, and tuned high-availability database servers, achieving near-zero downtime for critical government repositories.
- **Automation & System Reliability:** Engineered automated maintenance scripts and monitoring workflows to proactively resolve bottlenecks and guarantee absolute database consistency and accuracy.

EDUCATION

Master of E-Business Management — Arab Academy for E-Business, Damascus — 2022 – 2024
